CAREER OBJECTIVE

Seeking an entry-level Full Stack Developer role where I can apply my skills in HTML, CSS, JavaScript, React.js, Java (Servlets, JSP), and Node.js with Express to build scalable web applications. I have hands-on experience developing MERN stack projects, RESTful APIs, and authentication systems while following clean and maintainable coding practices. With a strong foundation in SDLC principles and system design basics, I focus on writing efficient and structured solutions. Eager to contribute to innovative products, continuously enhance my technical expertise, and grow within a collaborative engineering team.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript,ReactJS
- **Backend:** Java, node.js, express js, API Developement
- **Database:** MySQL, MongoDB
- **Tools:** Git, Postman, VS Code, Eclipse IDE, MS Excel, MS office, MySQL Workbench,Jira
- **Deployment:** Netlify,Vercel,Render,MongoDB Atlas

EDUCATION

Swarnandhra College of Engineering and Technology 2021 - 2025
B.Tech(Information Technology) CGPA: 6.82/10

PROJECTS

Personal Portfolio Website

Live: https://bishop-nportfolio.vsercel.app/

GitHub : https://github.com/bishopnakka/Bishop-Portfolio.git

Tech Stack: HTML | CSS | JavaScript | Responsive Design | Vercel

- Developed and deployed a responsive personal portfolio website to showcase my full-stack development projects, technical skills, and professional profiles.
- Designed a modern and mobile-friendly UI using HTML, CSS, Flexbox, and Grid, ensuring smooth navigation and optimized performance across different devices.
- Added direct contact integrations including email, LinkedIn, GitHub, and phone, enabling quick communication with recruiters and collaborators.

Full Stack E-Commerce Web Application

Live: https://bishop-nshopping.vercel.app/

GitHub(Frontend): https://github.com/bishopnakka/E-Commers-React.git

GitHub(Backend): https://github.com/bishopnakka/E-Commers-BE-backend-.git

- Developed a full-stack E-Commerce web application using React.js for the frontend and Node.js with Express.js for the backend, enabling seamless REST API communication between client and server.
- Implemented cart management and global state handling using Redux, allowing users to add, remove, and update product quantities dynamically across multiple pages.
- Integrated secure online payment processing using Razorpay, handling order creation, payment verification, and backend API communication for real-time transaction flow.

CERTIFICATIONS

- AI & ML Virtual Internship Supported By ALTAIR September - November 2023
- Data Science Master Virtual Internship Supported By aws academy July - September 2024
- Certificate of Internship – Java Full Stack Development March - 20 - 2025
  Issued by: Datavalley India Pvt. Ltd. (in collaboration with Andhra Pradesh State Council of Higher Education)
